

July 2019

Dear Parents,

As we come to the end of term, we have now finished completing observations on your child and their Learning Journeys are nearing completion.

Thank you for all the comments, likes and observations you have taken the time to add, they have all contributed to the amazing progress your children have made.

In order for you to have a copy we are now allowing you to download your child's learning journey yourself as a PDF. We hope this will be a convenient and environmentally friendly option for us all.

The Pdf files containing the pictures will be available to download for 7 days from today, Thursday 11th July until Wednesday 17th July.

Please follow these instructions to download your child's Journal:

1. Log into your Tapestry account via the website www.tapestryjournal.com
2. In the top right hand corner is your name, please click on your name.
3. This should then bring a drop down menu including "PDF downloads"
4. Click PDF Downloads, which will then bring you to a new page where your PDF learning journey is ready to download.
5. You can then click on the blue download button and save your child's learning journey to your computer.

PLEASE NOTE: Videos are not saved within this PDF, if there are videos you would like to keep you will have to click on the individual observations and save them manually by clicking download these photos and videos underneath the observation.

Should you encounter any problems please do not hesitate to contact us.

Thank you all for your continuing support and we wish all the children success as they move on to discover new learning opportunities in Year 1.

Yours Sincerely,

Rachel Foster

Early Years Leader
