

## Science week

### Planetarium

Dear Parents/Carers,

We are very excited to announce that on **Thursday 7<sup>th</sup> November 2019** the children will be able to take part in a mobile planetarium experience as part of our Science Week.

Each class will watch a spectacular show which will teach the children all about the stars, our solar system and the journey to the moon.

We would be grateful for a contribution of **£3.00** per child to cover the cost of the planetarium visit which every child will be taking part in.

The countdown to science week has started. Two weeks to go!

Thank you for your continued support.

Natalie Mildinhall
